

You have placement reports available to view your slot utility, the locations which have provided slots, and quickly access placement details for your students.

1. Select Placements from your left-hand menu or dashboard.

2. Select your desired course or placement group.

1. You can also select a placement group to manage multiple courses at a time.

4. Select Reports from the ribbon at the top of the page.

5. You will see the following reports available. The reports you see listed will vary in name depending on your discipline:

1. View for PT and PTA programs:

Our system provides a variety of placement reports tailored to meet specific accreditation standards and operational needs. Below is an overview of the available reports:

### **1. Number and Variety of Clinical Sites (Standard 2C)**

This report evaluates the settings associated with slots provided during the selected rotations. It highlights the number of slots filled versus those offered, helping programs assess the diversity and utilization of clinical sites.

### **2. Number and Variety of Clinical Slots (Standard 8F)**

This report provides the total number of slots offered by individual locations across selected rotations, offering insights into slot availability and location-specific slot distribution.

### **3. Comprehensive Placement Report**

This report contains detailed information about all placements and is updated every 24 hours. It provides an accurate snapshot of placement details for reporting and analysis.

### **4. Non-Consecutive Placement Calendar View (By Location)**

This calendar view report focuses on students attending non-consecutive placements at a specific location, presenting their schedules in an easy-to-read format.

### **5. Comprehensive Placement Report [Live]**

This live report offers real-time, comprehensive information on all placements within the selected placement group or course offering. Additional customization options are coming soon to enhance flexibility.

### **6. Placement Report by Site/Location**

This report displays all placement details for a given site/location and rotation combination, offering insights into site-specific placements.

### **7. Placement by Clinical Instructor**

This report provides placement details for a specific clinical instructor and rotation combination, allowing for instructor-focused analysis and tracking.
